PROFESSIONAL SUMMARY

I am a certified UX/UI designer, I design responsive websites and mobile apps that are easy to use because of the user-centered approach I love to use.

With the UX/UI design knowledge I have and my work experience, I have a synergy of understanding that can be applied to solve critical problems by creating solutions based on real research data rather than just assumptions.

I love to design products that are user-centered because they enhance the overall user experience.

I'm interested in UX/UI design because it serves as an avenue for me to make use of my problem solving potentials.
